

Intermediate Interior Designer

Summary:

Champion client's goals by designing with passion and the right kind of attitude to create provoking presentations and ultimately great spaces. Team up with an amusing team of designers to craft innovative solutions from beginning, middle, end, and more.

Duties/Responsibilities:

- Collaborate with the Director of Interiors and senior design team to develop design concepts
- Understand the architectural design process and integration of interior design concepts with ability to lead and develop design element components
- Develop and produce construction documents and detail sketches; execute red-line revisions
- Provide programming and space planning analysis
- Work independently and alongside team to meet project constraints of budget and schedule
- Develop, prepare, and coordinate presentation materials
- Be involved with coordinating contractors, consultants, and vendor assignments
- Collaborate with and mentor junior staff
- Assist the team with the selection of fixtures, finishes, furniture and coordinate with vendors/dealers, under the supervision of senior staff
- Support the project team in all aspects of programming, schematic design, design development and construction documentation phases
- Assist Construction Administration team with review of submittals and shop drawings and RFI responses
- Review of purchase orders from procurement agency and/or furniture dealership

Skills/Abilities:

- Proficient in the following software:
 - AutoCAD
 - Revit, strongly preferred
 - Sketch-up
 - Adobe Creative Suite
 - MS Office Suite
- Strong competency in interior design specifications, calculations and industry standards, and application of building codes and specifications
- Basic sketching and rendering skills
- Experience with furnishings and finishes, selections and specifications
- Working knowledge of Construction Documents
- Experience with space planning methodology
- Effective verbal and written communication skills

Education/Experiences:

- 5+ years of relevant full-time experience
- Bachelor's Degree from a CIDA Accredited Interior Design school or Architecture School
- Licensure or interest in completing your NCIDQ exams

About BB+M:

BB+M Architecture is a well-established, growing, and award-winning firm in Charlotte, NC. We don't just have a passion for design, but we also find joy in the journey and success of our clients.

At BB+M, we believe you should be good at what you do, love what you do, and (most of all) not take yourself too seriously. Our clients respond well to that attitude, and our work and casual environment reflect it. BB+M's culture is critical to our success. Candidates should have a positive, ego-free attitude, a willingness to learn, and enjoy working in a team environment.
